

August 20, 1985

TO: File

FROM: Everett Hooper, Reclamation Soils Specialist 

RE: Enercor, Solv-ex, DOE/047/011, Uintah County, Utah

On August 2, 1985, Tom Munson and Everett Hooper inspected the Enercor, Solv-ex site. The disturbance consisted of a small pit approximately 30 feet x 50 feet and 20 to 30 feet deep. The pit has been fenced with three strands of barbed wire. Overburden and tar sands were stockpiled adjacent to the pit. The total disturbance was under the two acres required for a Declaration of Exemption. No further action is required at this time.
